Dbase Rug

Il primo tappeto a filo pavimento
drenante e rimovibile

The first flush-to-floor outdoor carpet system on a modular basis.

Dbase Rug

Percorsi soft, accessibili e acusticamente piacevoli in soli 2,5 cm di spessore con tappeti drenanti e rimovibili.

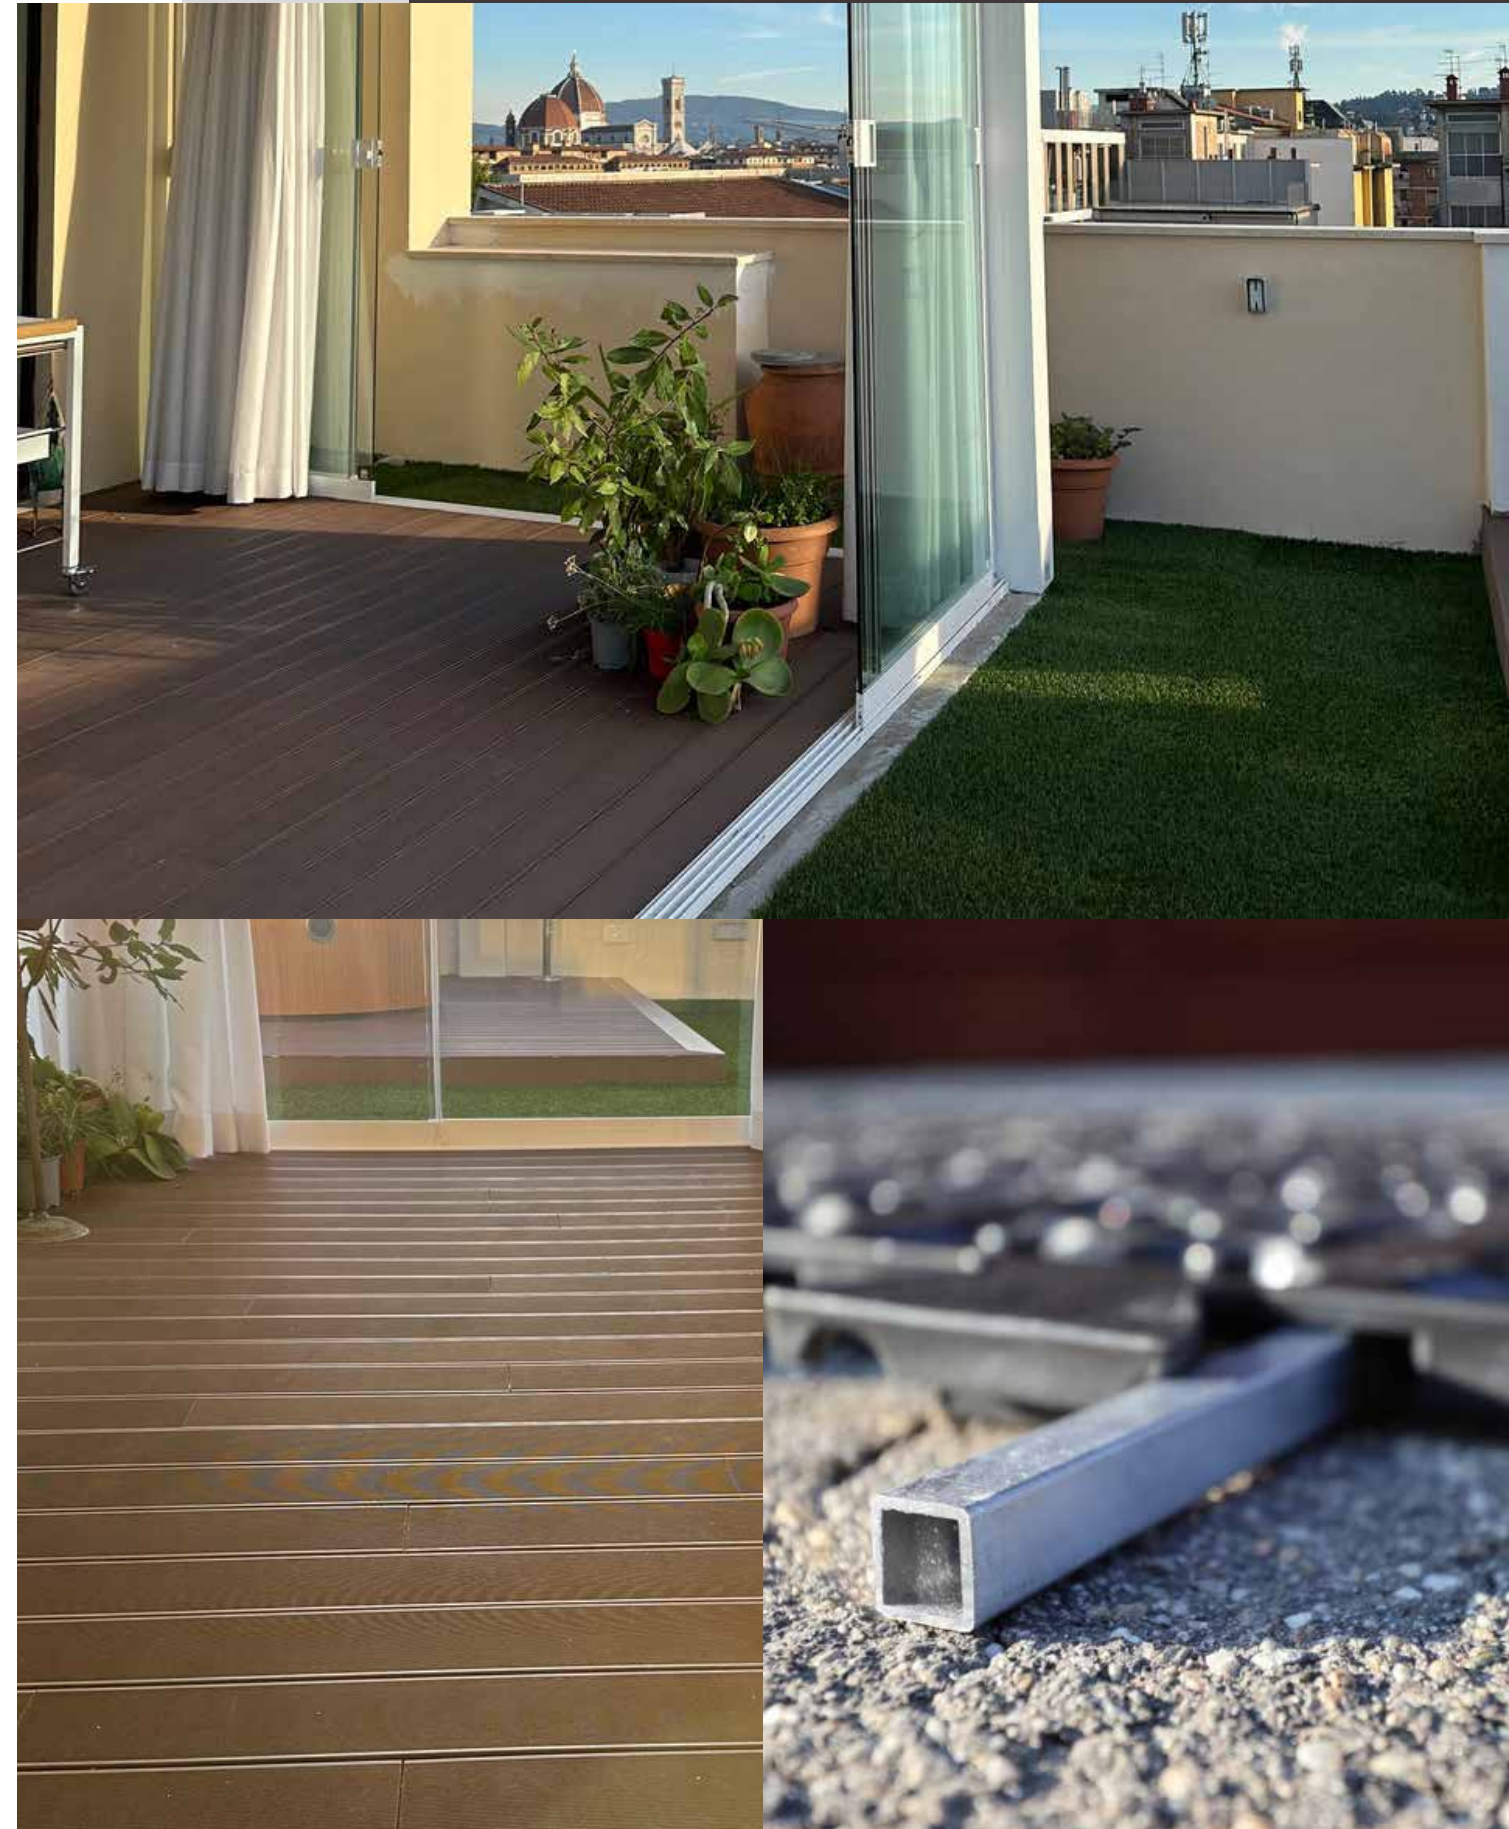

Soft, clean and acoustically pleasant paths in just 2.5 cm thickness with draining and removable outdoor rugs

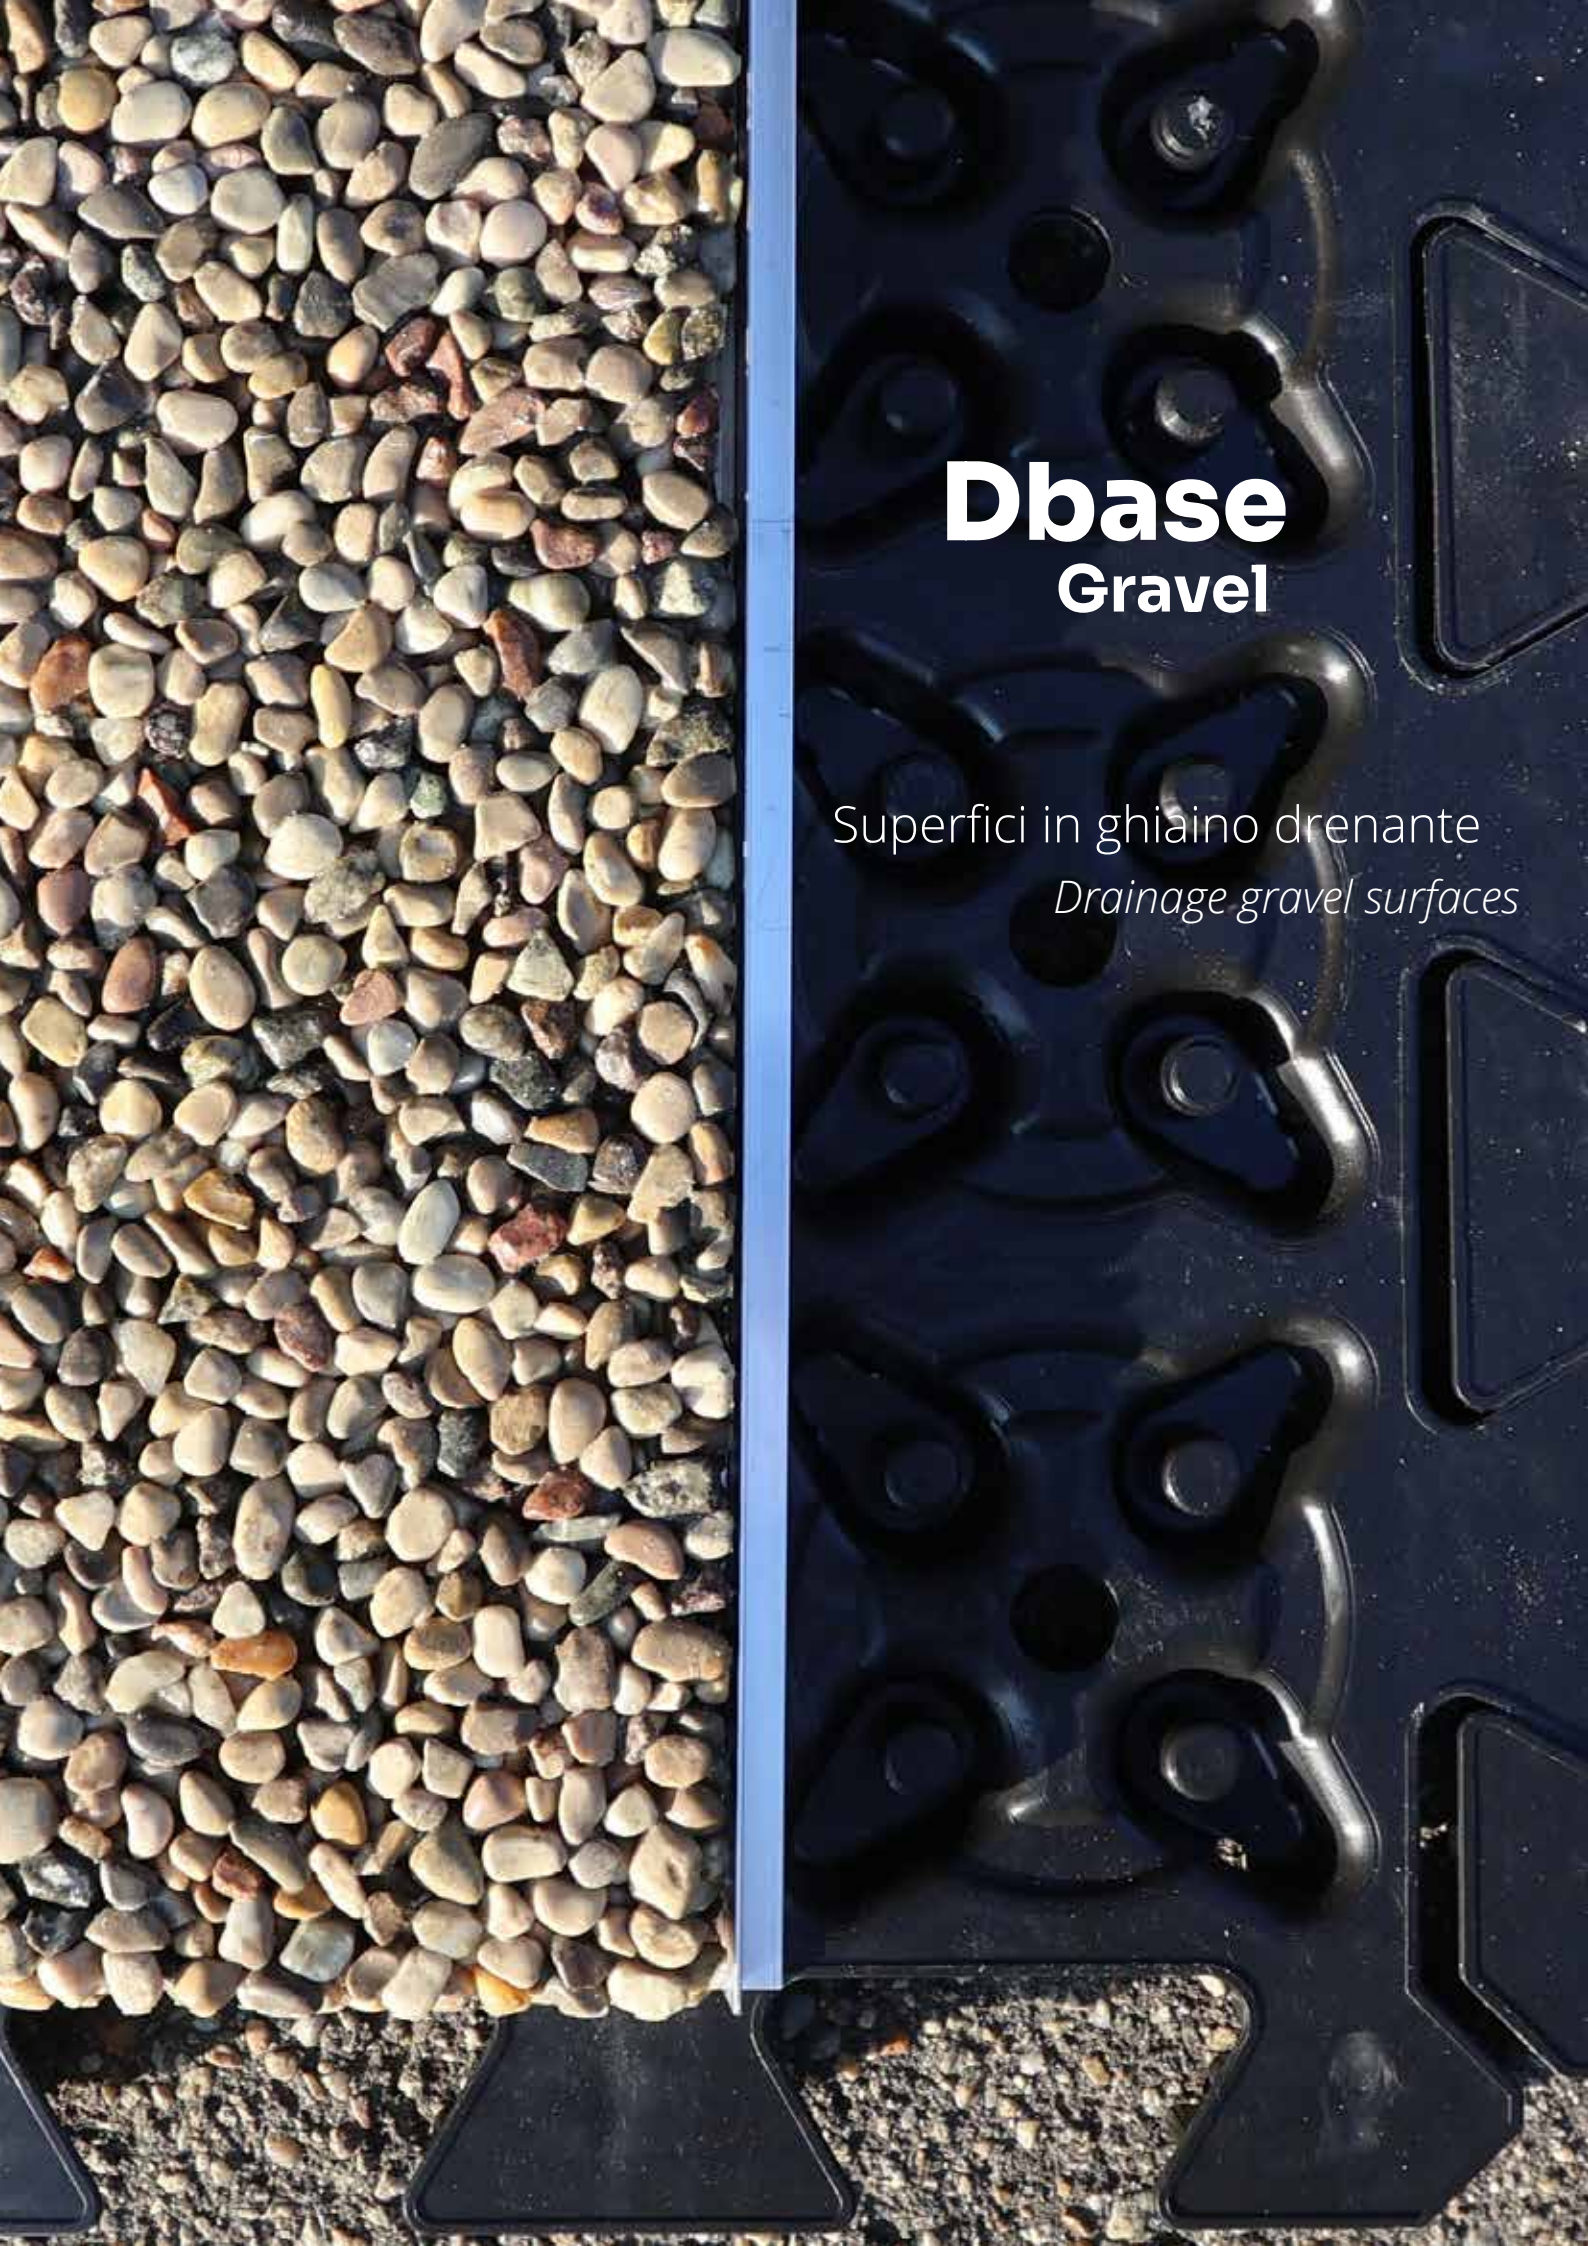

Dbase Rug

Dbase WPC

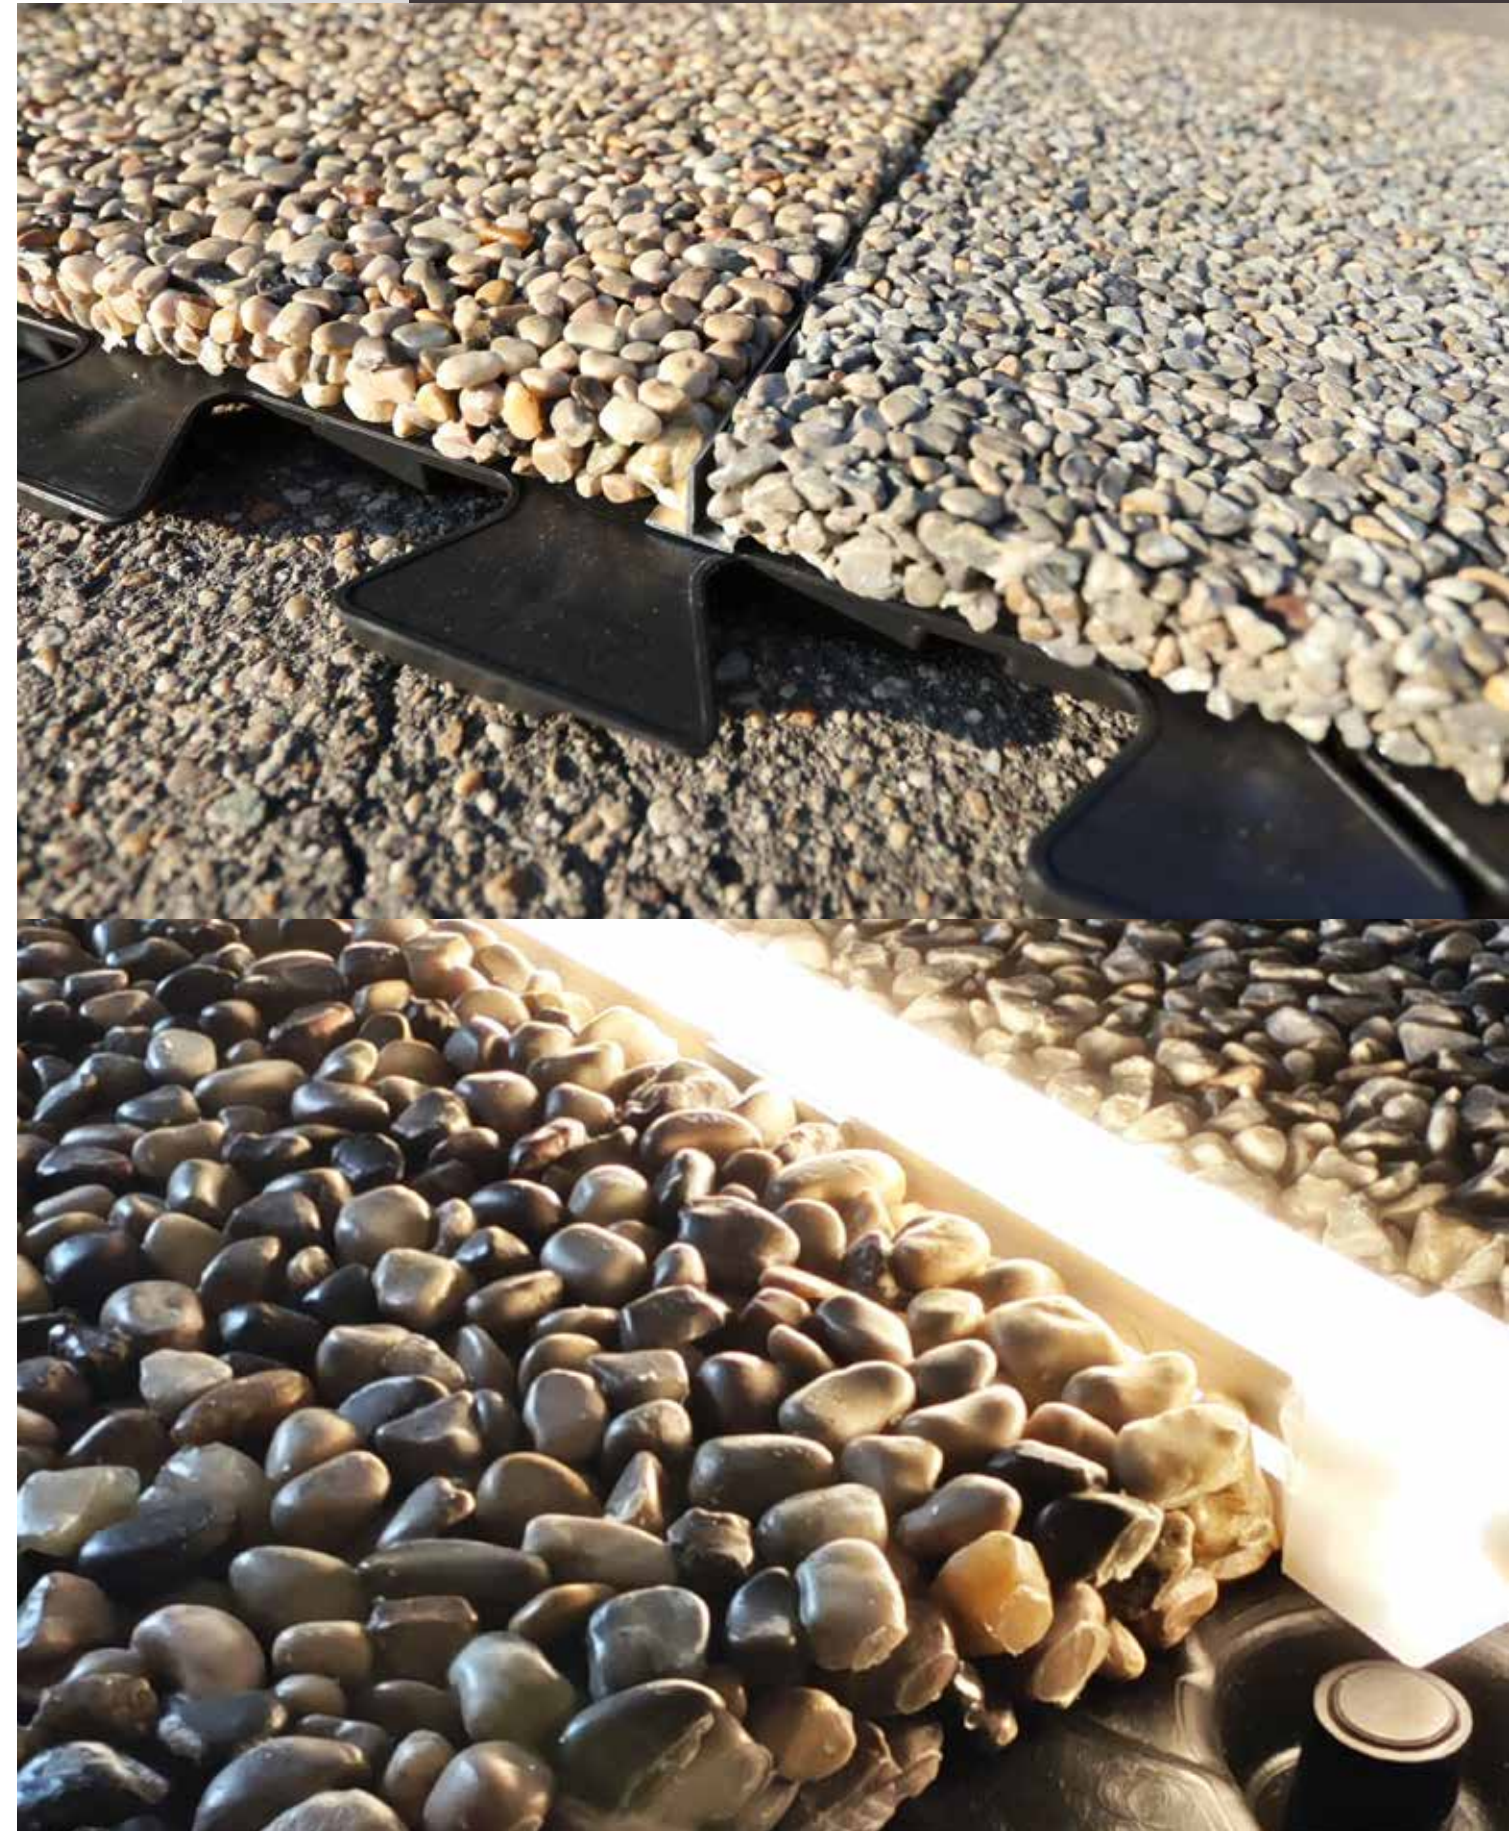

Una **nuova possibilità applicativa**
per il WPC a basso spessore
A new application for 9 mm low thickness WPC

A close-up photograph showing a layer of multi-colored gravel (tan, grey, and brown) on the left, and a black plastic drainage grid on the right. The grid has a repeating pattern of circular and triangular indentations. The text 'Dbase Gravel' is overlaid on the grid.

Dbase Gravel

Superfici in ghiaio drenante
Drainage gravel surfaces

La pavimentazione modulare e drenante con la **finitura in tappeto erboso dal look naturale**

Modular and draining flooring with a natural-looking turf finish

Finiture in erba sintetica

Il sistema di pavimentazione outdoor per la creazione di superfici in erba sintetica modulari e drenanti.

Il suo particolare design garantisce leggerezza e durabilità nel tempo.

The modular system to create draining outdoor artificial grass surfaces. The unique design guarantees lightness and durability over time.

MODULI IN APPOGGIO CONTINUO
